In association with,

The Institution of Engineers (India) & IETE SC Dwd

Sri Dharmasthala Manjunatheshwara College of Engineering & Technology, Dharwad

The Institute:

Sri Dharmasthala Manjunatheshwara College of Engineering & Technology, Dharwad is under the flagship of SDM Educational Society, Ujire. The guiding spirit and driving force for all the achievements and progress of our institute is the President **Dr. D. Veerendra Heggade**, Dharmadhikari of Sri Kshethra Dharmasthala, who has the highest concern for Vidyadana, being one of the philosophies of Sri Kshetra. SDMCET is one of the top quality institutions in India. Since its inception in 1979, the institute has established itself as a centre of high repute engaged in imparting quality education through innovative teaching learning process, best practices and providing support to Research & Developmental activities. The institution is recognized by AICTE, affiliated to VTU Belgaum, beneficiary of TEQIP phase II program of World Bank, accredited twice by NBA besides having academic autonomy. The institution offers Under Graduate programs in seven disciplines and eight Post Graduate programs across the departments.

Location:

SDMCET is located in Dharwad, along the Poona-Bengaluru National Highway 4. The

institute is spread over more than 60 acres of land surrounded by a beautiful picturesque view and is isolated from the densely populated area thus being conducive for academic activities. It is well connected by road, rail and air to major cities in India. Dharwad is the cultural city of Karnataka and is an excellent educational hub.

About the Conference:

The growing demand for electricity has increased the size of the power system and operational complexities. It is the need of the hour to address the issues that contribute for the qualitative degree of the network stability. In this context, the conference intends to throw light on how the new components and advent in technology will help managing the complex power systems with ease to introduce greater flexibilities. Topics of focus (*but not limited to*) are:

- **Integrated Power Systems Operation and Control**
- **Power Quality Issues and Mitigation**
- **AI applications to Power Systems**
- **SCADA/Smart Grid Applications**
- **Need of Hybrid Energy Systems**
- **HVDC and FACT Devices**
- **Energy Management Systems**
- **Rural Electrification**
