### The Institute

Sri Dharmasthala Manjunatheshwara College of Engineering and Technology, Dharwad is a wing of SDM Education Society, Ujire and under the able guidance of our revered President, Padmabhushan **Dr. D Veerendra Heggade**. It is one of the top and quality imparting institutions in India. Established in the year 1979 and since then the institute has bloomed itself as a focal point of high repute engaged in imparting quality education through the best practices in teaching-learning processes. Recognized by the AICTE, New Delhi affiliated to VTU Belgaum and having claimed the Autonomous state; further aiming towards Deemed status, is a beneficiary of TEQIP phase II program of the World Bank. The Institute is offering UG programs in seven disciplines and seven PG programs and has been accredited twice by the National Board of Accreditation, NBA New Delhi.

### Location

SDMCET Dharwad is located on the Pune-Bangalore National Highway 4. The premises is spread over more than 60 acres of land influenced by a serene and a scenic landscape and very well isolated from city making it more conducive for the academics. It is well connected by rail, road and by air to major cities across India.

### The Department

The Department of Chemical Engineering came into being in the year 1995, and since then 17 batches of students have graduated successfully. All are well placed in industries and academic institutions of repute all over India and abroad. This fact throws light on the impetus given by the department to the budding engineers through excellent infrastructure, facilities and the well qualified, experienced and dedicated faculty. The department has attained fame, reputation and a good rapport both locally and outside the region. Significant facilities are on the anvil to cater to the needs of industry and community at large. The Department imparts Testing and Consultancy services to nearby industries and has indeed attained the status of being in the limelight and recognition, and truly speaks about the governance and always a look ahead.

### About the Workshop

Universities and Industry, for long have been operating in separate domains. In the face of globalization, there is a growing demand on the part of universities to develop the faculty/students by gaining the insight and the knowledge of latest technological developments taking place and prepare for the industry. This calls for industry and academia to rapidly inch closer to each other to create a synergy. The motto of this Workshop is to bring the eminent people who have vast and rich experience and have acquired enough in this field to come closer and share with both students and faculty. It necessarily intends to have an insight on the following objectives.

1. Optimization in process design
2. Optimization in process operations and Control
3. Optimization technique

### Audience

It is very well targeted for the teaching faculty/final year students from Chemical, Biotechnology and Polymer Engineering.

### Resource Persons

1. **Prof. Ravindra Gudi**,  
Chemical Engineering Department, IIT-Bombay.
2. **Mr. Siva Subramanian**
