Report of program on “PROJECTS AND SOCIAL RELEVANCE”

Jahnvi Joshi and Nupura Kirloskar, founders of Blee Technological Innovations Pune interacted on topic ‘ Project and social relevance” with VI sem and VIII sem students on 8-2-2016, 10.30 am-11.30am. Jahnvi Joshi and Nupura Kirloskar won National Level innovative idea competition by President of India. They have started Blee Technology Innovations at Pune. Blee was a part of MIT (Massachusetts) Global Start-up Labs and had won second position at National level product competition. Blee is a wearable for musicians and dancers. The device gives vibration feedback of the music. The product is also aimed towards deaf and hard of hearing dancers which helps them understand music through the sense of touch. They have shared their experience of selecting the project, practical difficulties, and the way they have succeeded in overcoming the problems.
