

BEST PROJECTS

The panel comprising of Senior Professors of Civil Department will decide the Best Projects. The projects are selected on the basis of criteria achieved by it. The different criteria are Social Relevance, Funding by some agencies, Prizes/Exhibition, Publications. The project satisfying one or more criteria will be considered as best projects.

SL.NO	TITLE	GUIDE	SOCIAL RELEVANCE	PAPERS PUBLISHED	FUNDING	EXHIBITION / PRIZES
2018-19						
1	Prioritization of sub watershed of Bidthi catchment	ITS				✓
2	Measurement of BOD using Microbial cell	SGJ	✓			
3	Study of water quality of river Kali due to discharge of effluent at Dandeli.	SGJ	✓		✓	
4	Sediment budget and shore face management strategies'. Case studies of Kundapura beach UdapiDist	VSH			✓	
5	Influence of GBFS on resilient modulus of black cotton soil	SAK	✓			
6	Utilization of sludge in Brick manufacturing	SGJ	✓		✓	
7	Mining, soil stabilization and erosion control. A case study on Star mines, Hospet	PMM	✓	✓		
8	Study on enhancement of strength parameters of lime water	SSC	✓			✓
2017-18						
1	Sediment yield in Varada Catchment	ITS				✓
2	Manufacturing of brick using black cotton soil	MSP	✓			✓
3	A study on the use of admixtures to improve the properties of clay brick	UDH	✓			
4	Landslides stabilization using soil nail and mechanically stabilized walls	GSM	✓			
5	Solid Waste Management for institution	SGJ	✓		✓	

	SDMCET					
2016-17						
1	Study on Performance of granulated Blast furnace slag on Fatigue Characteristics of Black cotton soil	SAK	✓			
2	Conversion of spent coffee grounds to renewable energy	SGJ			✓	
3	Mapping of PM10 air pollutants in Dharwad using GIS	SGJ	✓			
4	Pollution dispersion around the Kali estuary, Karwar.	VSH			✓	
5	Study on behavior of concrete in combination of steel slag and nano material.	PMM	✓	✓
