"Current Trends In Industry - Placement Perspective"

A session was conducted on "Current Trends in Industry" By our alumnus Mr. Chakravarty, System Programmer, Thoughtworks India Pvt. Ltd., Bangalore, Urban, Karnataka, India, on 20th April 2022, Wednesday from 10:30 am to 12:30 pm.

The target audience were III year BE (CSE) students. The number of students attended was 61. Prof. Ranganath Yadawad coordinated the event. Dr. S M. Joshi welcomed the resource person and set the objectives of the session. Prof. Ranganath Yadawad gave the opening remarks about the session and introduced the resource person to the audience. Mr. Chakravarty gave an insightful session about the current trends in the market. He shared his ideas and works that are happening in the following areas:

- i) Devops
- ii) AWS
- iii) Azure
- iv) Junkin

- v) Github
- vi) Block Chain Technology
- vii) Full Stack Development
- viii) Object Oriented Paradigm

Mr. Chakravarty also spoke about the placement preparations where he emphasised on problem solving skills. He also opined that students can look for Banking sectors, where there are lot of opportunities in software development cells of respective banks. He also shared some good sources for video material for preparations for all kinds of competitive exams. Students asked questions on placement opportunities and depth of knowledge required for the afore mentioned topics to face the interviews. Overall the session was interactive and very useful to the students. Prof. Ranganath Yadawad gave formal vote of thanks.
