1. Your view on current Vision and Mission

**Vision:** To establish a synergetic Mechanical Engineering program anchored in fundamentals and relevant state of the art technologies, thereby enabling the students to achieve all round development for careers in industry and for higher learning, being responsible to society and environment.

**Mission:**

- To establish a curricula & syllabi consisting of robust core courses with emphasis on imparting fundamental principles of mechanical engineering coupled with adaptive and relevant electives catering to the cutting edge technologies.
- To promote interactive teaching practices using modern educational tools & techniques to attain synergy in teaching, research and industrial practices.
- To imbibe industrial expertise for connecting class room learning to real life situation.
- To impart soft skills and professional ethics enabling students to achieve an all round personality development, making them responsive to societal needs and environmental concerns.

**Yes / Ned changes**

2. Your view on the expected / existing contents of the curriculum to prepare students for industry requirements

I. GOOD

3. What changes you suggest to the **research infrastructure** so that the department will be in line with current trends in research and consultancy?

I. Teach MS Excel {Basics}

4. Your views on expected / existing industry connectivity / placement

I. GOOD

5. Any other specific suggestion you wish to make to the department?

I. MS OFFICE BASICS {MS EXCEL SPECIALLY}

Tick appropriate options for the questions given below about PSO's.

### Program Specific Outcomes (PSOs)

1. **Industrial interactions:** Enhance knowledge of mechanical engineering with industrial practices and standards by exposure to industries.
2. **Role of economics and costing:** Learn the concepts of economics and costing to provide effective solutions to mechanical engineering problems.

Yes / ~~Ned~~ changes
