SDM College Engineering and Technology, Dhavalagir Dharwad

Electrical and Electronics Engineering

Feedback given by the students about revision of syllabus

Questions asked in Google form

Your suggestion to further improve the learning environment in the Department /Institution.

Description (optional)

Any suggestions ?

Long answer text

Batch	Suggestions
2017-18	• Add software languages to electrical department like C,C++,Java • Upgrade the curriculum • Give more importance for practical knowledge than marks, attendance. • Please reduce the final year subjects and there should be more core companies • Hardware implementation awareness to students.
2018-19	• Please include C-programming subject as compulsory to lateral entry students • More emphasis should be given for practical studies • Emphasis should be given for practical learning and project based learning rather than theoretical approach. • More exposure to practical experience in few subjects.

S. Lankaliki.

Head of the Department
of Electrical & Electronics Engineering,
S.D.M. College of Engg & Technology
