

Solar Rooftop Photovoltaic System at SDMCET, Dharwad

Date of Commissioning : 28-08-2020

Venue: SDMCET

Keeping in mind our revered president vision of **Go Green campus**, SDMCET installed Solar **275 kWp** RTPV system in the month of August, 2020. Average power consumption per month in our campus is around **80,000 units** and Solar system takes care of **40%** of power demand during fair weather conditions. There is a considerable saving in the monthly electricity bill.
