TO WHOMSOEVER IT MAY CONCERN

We follow an Absolute grading system on a scale of 10. The Cumulative Grade Point Average (CGPA) earned by a student on a scale of 10 is an indication of the student's academic standing in the class.

With regard to the conversion scheme of CGPA to percentage, the following formula has been adopted as per the guidelines of Visvesvaraya Technological University, Belagavi.

$$\text{Percentage of Marks} = (\text{CGPA} - 0.75) \times 10$$
